Note: Gardeners having plots within the areas enclosed by the club's electric fences are expected to abide by the rules governing these areas. Private fences within these areas are not allowed. Members are requested to pitch in and help with required maintenance. This includes mowing the grass beneath the fence (it must be cut approximately once a week to prevent the fences from shorting to ground), helping with fence/charger repairs and other miscellaneous tasks such as helping knock down weeds, blackberries and grass on vacant plots.
