GSFC Photography Club

Upcoming meeting:

Aug. 8th 2012

Building 12 Room N112 12p – 1p

This month's Featured Photographer will be: **Karen Johnson**. For the August meeting club member **Pete Banholzer** will be discussing Histograms. Most of us have been advised to use the histogram on our digital cameras, but how many of us actually do? Pete's presentation will go over a basic understanding of the digital camera's histogram and how to apply that knowledge out in the field.

Next Month's meeting:

TUESDAY! September 18th 2012

*date subject to change

Club Picnic!

Come out and celebrate another great year of photo club with us!

Snap and Share Sessions!

So far we've been having a great turnout to the snap and share sessions initiated by club member **Fran Stetina**. Last month's session focused on vacation and Luray Caverns imagery. We had over 90 images submitted, so thank you to all who participated! If you haven't already, visit the club's Flickr page to check out the submissions. This is a great way to get some feedback on your images and gather some creative inspiration. As if that is not enough of an incentive, member-selected photos from the Snap and Shares will be mounted in our upcoming rotating exhibit in the Building 1 cafeteria.

Please note that these meetings will be in addition to the regular club meetings.

Next Session:

August 22nd : Summer/Vacation Photos
Hope to see you there!
